Good morning Dr. Lu and Dean Chamra,

Yesterday, I received a page with 71 student signatures affirming their tremendous appreciation for George Corser (current Ph.D. candidate). They stated that they believe that George would be an excellent addition to our faculty as a full time professor.

As you know George created the "Grad Student Connection", a thriving student organization here on campus. He also seems to have invested an incredible amount of time helping with Cyber-OU, an organization that has many undergraduate students. I am not intimately familiar with George's research, but I can tell you that George is the most student-engaged and university-engaged Ph.D. student with whom I have ever interacted. He is a difference maker and a leader. It is his type of student-centered approach that helps drive the quality of their educational experience.

From my perspective, George has everything it takes to be a great professor, and I hope that he would have a chance to interview for a faculty position at many universities, including OU. (George is cc'ed on this email, for his reference.)

Sincerely,
Lorenzo
